City of Onalaska,  
Texas**

PUBLIC NOTICE  
City of Onalaska  
COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM  
TEXAS GENERAL LAND OFFICE  
2022 METHOD OF DISTRIBUTION (MOD) APPLICATION  
April 3, 2023

The City of ONALASKA is giving notice of the City's intent to submit a Community Development Block Grant Program MOD Application(s) to assist the community with Mitigation efforts through roadway and drainage improvements throughout the City.

The total project allocation is \$679,000. This application is available for review on the City's website (<https://www.cityofonalaska.us>) Citizens are welcome to review this application for a 14-day public comment period and provide all public comment to City Administrator via email at [cityadministrator@cityofonalaska.us](mailto:cityadministrator@cityofonalaska.us) or at City offices located at Onalaska City Hall, 372 South FM 356, Suite 101, Onalaska, Texas, 77360 during regular business hours.

# City of Onalaska CDBG-MIT MOD Application

## Project Description

This project will improve two streets within the city limits of Onalaska.

1.) Magnolia Street is 1,588 linear feet in length and will include raising of the existing street elevation in order to install approximately 288 linear feet of culvert, provide channel regrading, 2.5 inches of hot mix asphaltic concrete over a stabilized subgrade of approximately ten (10) inches in depth with the chemical mixing application rate that will be determined by conducting geotechnical investigations. The street will be crowned at the centerline to facilitate the removal of water from the streets thence to the channels and then to outfall. This effort will mitigate certain drainage issues currently experienced.

2.) Paynes Lane is 580 linear feet in length and provide channel regrading, 2.5 inches of hot mix asphaltic concrete over a stabilized subgrade of approximately ten (10) inches in depth with the chemical mixing application rate being determined by conducting geotechnical investigations. The street will be crowned at the centerline to facilitate the removal of water from the street thence to the channels and then to outfall.

## CDBG-MIT: Budget Justification of Retail Costs (Former Table 2)

Cost Verification Controls must be in place to assure that construction costs are reasonable and consistent with market costs at the time and place of construction.

**1. Identify and explain the annual projected operation and maintenance costs associated with the proposed activities.**

The primary Operation and Maintenance (O & M) cost initially is to insure that culverts are free flowing and not cluttered with debris immediately following rainfall events. This can be simply flushing culverts to keep them open and not be clogged therefore reducing flow capacity. It is estimated that the O & M cost for this effort would be approximately \$1,500/year. The life of asphaltic pavement is enhanced with crack sealing operations and should be addressed after a period of 5 years. Estimated O & M cost should also be in the range of \$1,500/year.

**2. Identify and explain any special engineering activities.**

Special Engineering activities are the need for geotechnical services for the purpose of conducting field bores along the proposed roadway section. Said bores will be taken at approximately 500 linear foot intervals to a depth of 5 to 10 feet. Samples of the underlying soils will be tested for Atterberg limits for each layer encountered. Onalaska's Streets historically required chemical stabilization because of shrinkage and expansion characteristics of the various clayey soils normally encountered.

**TABLE 1 - CONTRACT BUDGET AND BENEFICIARY IDENTIFICATION**

Provide comprehensive budget information to include construction, engineering, acquisition, environmental services, and administrative costs. Also include all other funds (FEMA, insurance, local, etc.) committed to the completion of the proposed projects.

A *project* is defined as a discrete combination of: entity (i.e., city or county), activity (i.e., water, sewer, etc.), beneficiary population, and national objective. A *site* is defined as a discrete location for activities within a project. A project can have one or more sites.

**BUDGET TABLE:**

Project Title:	Total Benes	LMI Benes	LMI %	CDBG-DR Construction	CDBG-DR Engineering	CDBG-DR Acquisition	CDBG-DR Environmental	CDBG-DR Admin	Total CDBG-DR Request	Other Funds	Activity Total
